

## Carbonera Pubblicazioni

Balestrazzi A., Chini A., Bernacchia G., Bracci A., Luccarini G., Cella R. and **Carbonera D. (2000)** Carrot cells contain two *top1* genes having the coding capacity for two distinct DNA topoisomerases I. **J. Exp. Bot.**, 51:1979-90.

Balestrazzi A., **Carbonera D.** and Confalonieri M. (2000) *Agrobacterium tumefaciens*-mediated transformation of elite white poplar (*Populus alba* L.) and regeneration of transgenic plants. **J. Genet. & Breed.**, 54: 263-270.

**Carbonera D.**, Berta G. and Bonfante P. (2001) Editorial: Histochemistry for plant biology. **Eur. J. Histochem.**, 45: 7-8.

Balestrazzi A., Bernacchia G., Pitto L., G. Luccarini and **Carbonera D. (2001)** Spatial expression of DNA topoisomerase I genes during cell proliferation in *Daucus carota*. **Eur. J. Histochem.**, 45: 31-38.

Balestrazzi A., Ressegotti V., Panzarasa L. and **Carbonera D. (2003)** Isolation and functional analysis of the 5'-flanking region of carrot *top1* gene coding for the isoform of DNA topoisomerase I. **Bioch. Biophys. Acta**, 1625: 197-202.

Confalonieri M., Balestrazzi A., Bisoffi S. and **Carbonera D. (2003)** *In vitro* culture and genetic engineering applied to *Populus* spp.: a synergy towards forest tree improvement. **Plant Cell, Tissue and Organ Culture**, 72: 109-138.

**Carbonera D.**, Balestrazzi A., Confalonieri M. e Ressegotti V. (2003) OGM e sterilità: produzione di piante transgeniche di pioppo a basso impatto ambientale. In: Organismi geneticamente modificati: etica, tecnica, norme. (Eds. Medici A., Grillo C.M., Bernacchia G.) pp. 197-209, La Tribuna, Piacenza.

Balestrazzi A., Confalonieri M., Odoardi M., Ressegotti V., Allegro G., Tava A. and **Carbonera D. (2004)** A trypsin inhibitor cDNA from a novel source, snail medic (*Medicago scutellata* L.): cloning and functional expression in response to wounding, herbivore, jasmonic and salicylic acid. **Plant Science**, 167: 337-346.

Capitani F., Biondi S., Scaramagli S., Balestrazzi A., **Carbonera D.**, Torrigiani P. and Altamura MM. (2005) Methyl jasmonate disrupts shoot formation in tobacco thin cell layers by over-inducing mitotic activity and cell expansion. **Planta**, 220: 507-519.

Locato V., Balestrazzi A., De Gara L. and **Carbonera D.** (2006) Reduced expression of *top1* gene induces programmed cell death and alters ascorbate metabolism in *Daucus carota* cultured cells. **J. Exp. Bot.**, 57: 1667-1676.

**Carbonera D.** (2006) Genetica di popolazione ed evoluzione. In: J.D. Mauseth, Botanica. Biodiversità. Idelson-Gnocchi ed., Napoli, Italy, pp.414-442.

Zelasco S., Ressegotti V., Confalonieri M., **Carbonera D.**, Calligari P., Bonadei M., Bisoffi S., Yamada K., Balestrazzi A. (2007) Evaluation of MAT-vector system in white poplar (*Populus alba* L.) and efficient production of *ipt* marker-free transgenic plants by 'single-step transformation'. *Plant Cell, Tissue and Organ Culture*, 91: 61-72.

Bonadei M., Balestrazzi A., Giorcelli A., Mattivi F. and **Carbonera D.** (2007) Evaluation of the expression level of the endogenous marker *poUBI* gene for studies on transgene stability in *bar* and *StSy* GM poplars. *Caryologia*, 60: 172-174.

Botti S., Balestrazzi A., Zelasco S., Biondi S., Lingua G. and **Carbonera D.** (2007) Production of *ipt*-expressing white poplar lines (*Populus alba* L.) with abnormal root morphology. *Caryologia*, 60: 175-177.

Balestrazzi A, Bonadei M, **Carbonera D.** (2007) Nuclease-producing bacteria in soil cultivated with herbicide resistant transgenic white poplars. *Annals of Microbiology*. 57: 531-536.

Balestrazzi A., Bonadei M., Zelasco S., Calvio C., Galizzi S., **Carbonera D.** (2008) Recovery of useful trait from isolates inhabiting an agricultural soil cultivated with herbicide-resistant poplars. **Can. J. Microbiology**, 54: 201-208.

Balestrazzi A., Bonadei M., **Carbonera D.** (2008) PCD hallmarks in cell suspension cultures of white poplar (*Populus alba* L., cv. 'Villafranca') challenged with cadmium. **Plant Biosystems**, 142: 650-652.

Scaramelli L., Balestrazzi A., Bonadei M., Piano E., Carbonera D., Confalonieri M. (2009) Production of transgenic barrel medic (*Medicago truncatula* Gaernt.) using the *ipt*-type MAT vector system and impairment of Recombinase mediated excision events. *Plant Cell Reports*, 28: 197-211.

Balestrazzi A., Bonadei E., Quattrini E. , Carbonera D. (2009) Occurrence of multiple metal-resistance in bacterial isolates associated with transgenic white poplars (*Populus alba* L.). *Annals of Microbiology*, 59 (1): 17-23.

Balestrazzi A, Bonadei M, Calvio C, Mattivi F, Carbonera D. (2009) Leaf-associated bacteria from transgenic white poplar (*Populus alba* L.) producing resveratrol-like compounds: isolation, molecular characterization and evaluation of oxidative stress tolerance. *Can. J. Microbiology*, 55: 829-840.

Balestrazzi A., Botti S., Zelasco S., Biondi S., Franchin C., Calligari P., Racchi M., Turchi A., Lingua G., Berta G. and Carbonera D. (2009) Expression of the PsMTA1 gene in white poplar engineered with the MAT system is associated to heavy metal tolerance and protection against 8-hydroxy-2'-deoxyguanosine mediated-DNA damage. *Plant Cell Reports*, 28: 1179-1192.

Balestrazzi A., A. Macovei, C. Testoni, E. Raimondi, M. Donà, D. Carbonera (2009). Nitric oxide biosynthesis in white poplar (*Populus alba* L.) suspension cultures challenged with heavy metals. *Plant Stress*, 3: 1-6.

Bonadei M., Balestrazzi A., Frigerio B. and Carbonera D. (2009) Detection of recombinant DNA in loamy sand cultivated with transgenic white poplars and persistence study in soil microcosms. *Environmental Biosafety Research*, 8: 79-86.

Balestrazzi A., M. Bonadei, C. Calvio, A. Galizzi, D. Carbonera (2009) DNA extraction from soil: comparison of different methods using spore-forming bacteria and the *swrAA* gene as indicators. *Annals of Microbiology* 54: 827-832.

Balestrazzi A., Locato V., Bottone M.G., De Gara L., Biggioggera M., Pellicciari C., Botti S., Di Gesù D., Donà M., Carbonera D. (2010) Response to UV-C radiation in topo I-deficient carrot cells with low ascorbate levels. *J. Exp. Bot.*, 61: 575-585.

Bonadei M., Calvio C., Carbonera D., Galizzi A., Quattrini E., Balestrazzi A. (2010) Spore-forming bacteria in soil cultivated with GM white poplars: isolation and characterization. *Folia Microbiol.* 55: 39-46.

Macovei A., Balestrazzi A., Confalonieri M., Carbonera D. (2010) The Tdp1 (Tyrosyl-DNA phosphodiesterase) gene family in barrel medic (*Medicago truncatula* Gaertn.): bioinformatic investigation and expression profiles in response to oxidative stress. *Planta*, 232: 393-407.

Confalonieri M., Roberto Borghetti, Anca Macovei, Claudia Testoni, Daniela Carbonera, Pedro Salema Fevereço, Caius Rommens, Kathy Swords, Efisio Piano, Alma Balestrazzi (2010) Backbone-free transformation of barrel medic (*Medicago truncatula*) with a *Medicago*-derived transfer DNA. *Plant Cell Reports*, 29:1013-1021.

Balestrazzi A., V. Agoni, A. Tava, P. Avato, E. Biazzi, E. Raimondi, A. Macovei, D. Carbonera (2010). Cell death induction and nitric oxide biosynthesis in white poplar (*Populus alba* L.) suspension cultures exposed to alfalfa saponins. *Pysiologia Plantarum*, 141: 227-238.
